The purpose of this document is to give clients a head start on the process of selecting specific tracks for events during the wedding ceremony and reception. These are all selections that we have seen work well at previous events and are obviously not all of the options available, just a sample to gain an idea. A good way to listen to clips of these songs is to download iTunes and search for the tracks you are interested in previewing. Some of them are standards and some are hidden gems that we have discovered along the way.
